To Whom It May Concern:

After thirty years of doing business with Don Barnett and Great Southern Insulation Corp. I can, without reservation, recommend them to anyone requiring their services. Over the years we have called on Great Southern to perform in many different areas related to soundproofing, from purchasing materials to complicated fabrication of generator enclosures, and other difficult and extremely customized installations. They have always performed in a timely manor, with quality craftsmanship and in a serious business like way.

I highly recommend them to anyone.

Yours truly,

  
Richard A. Herron  
President
